Stop The Money

International terrorism directed against Americans is financed by money sent to terrorists from sources around the world. The U.S. Government is offering a reward for information leading to the dismantling of any system used to finance a terrorist organization and information leading to the arrest or conviction of those who planned or aided in any act of terrorism against U.S. persons or property.

If you have *any* information about individuals or organizations that finance terrorists, please email RFJ@state.gov or call 1-800-877-3927 in the U.S.; outside the U.S. contact the nearest U.S. embassy or consulate.
